

## Durable Housing

The curved surface is smooth and easy to clean

## Slide Mounting

Easily mounted with the mounting bracket

## Control Knob / Regulator

- Ergonomic design provides smooth & easy control
- Easy adjustment of Oxygen concentration from 21 ~ 100%

## Primary Outlet

## Auxiliary Outlet

With Bleed Control Valve

## Oxygen Outlet

## Air Outlet

With DISS Oxygen Connector

With DISS Air Connector

## Features:

- Suitable for use in Emergency Room & ICU where accurate oxygen concentration is required
- Double-ended proportioning valve enables easy adjustment of oxygen concentration from 21% to 100%.
- Two-stage pressure-balancing mechanism is adopted to deliver steady oxygen concentration.
- Two outlet ports and bleed valve allow a wide range of applications
- Internal bypass and alarm mechanism ensure safe use.

## Specifications

- Air/O<sub>2</sub> Input Pressure: **3.5 bar (2.0 ~ 5.0 bar)**
- FiO<sub>2</sub> Range : **21% ~ 100%**
- Flow Range : **0 ~ 30 lpm for Low Flow (Model: GMX30)**  
**0 ~ 120 lpm for High Flow (Model: GMX120)**
- Accuracy : **± 3%**
- Alarms (Audible) / Air/O<sub>2</sub> Bypass : **Difference between input pressure of Oxygen & Air exceeds 1.5 bar**
- Escape Flow / Bleed : **Adjustable.**
- Dimensions (HxWxD) : **138 x 140 x 165 mm<sup>3</sup> (Blender Only)**
- Weight : **1.5 kgs (Blender Only)**
- Optional Accessories : **Air Hose, Oxygen Hose, Mounting Bracket**
