

Agilia SP

Syringe infusion pump

Syringe Pump from Fresenius

Refurbished

Intuitive and safe settings

- The infusion setting is guided and each step clearly identified.
- The displayed instructions are simple to follow. Intuitive settings increase user confidence.
- Sensors continuously check the correct administration of drugs in the syringe.
- Every handled part has been painted blue for easy identification by user.

Clear monitoring

- Infusion monitoring is easy thanks to a clear screen with key information at a glance.
- The syringe is always visible and the flow indicator lights enable quick and safe monitoring.
- The DPS functionality enables close pressure monitoring for early occlusion detection.
